POWER	ELECTRIC 6.1kw 400v. 50hz 32a 3 Phase		
INTERNAL REF	GH1500ZPP		

The GEDA 1500 ZPP unites two different machines in one: a hoist for materials with a load bearing capacity of 2000kg and a transport platform for material and persons. This hoist may transport up to 7 people in addition to goods as soon as it has been switched to the operating mode 'transport platform'. This can help to improve logistics on site.

The load platforms provide enough space for bulky and heavy building materials. We supply and fit our GEDA electrical/mechanical interlocking landing gates, which close access openings so that it is not possible to fall into hoistway or come into contact with moving parts of the hoist.

This hoist is delivered and lifted into place by a hiab.

Rapid Platforms offer new and used access equipment for sale at great prices. We service our machinery above and beyond the manufacturer's recommendations, so if you are looking for used equipment we should definitely be your first port of call. We also offer first class IPAF and PASMA training either at our onsite facilities or at a customer provided or specified location. Our qualified and experienced team of workshop and mobile engineers can assist you with servicing, repairs and LOLER thorough examinations.

The information provided is for guidance only. It may change at any time in accordance with manufacturer's specification.
